

## Perfactory® Vida Hi-Res C&B

The Perfactory Vida Hi-Res C&B (Crown & Bridge) is a low cost, high resolution, easy to maintain and user friendly 3D printer for the digital dental laboratory. The Vida Hi-Res C&B boasts a high resolution projector running at 1920 x 1080 pixel resolution with custom UV optics, specially optimized for crown and bridge materials. Once the print job is preprocessed on a computer housing the Perfactory software suite, it is transferred to the machine via Ethernet or USB and can run independently without the need for continuous connection to the preprocessing computer. The surface quality of the printed models allows for production with no signs of stairstepping, unlike the visibility when using competing technologies. The 35 µm resolution of the Perfactory Vida Hi-Res C&B allows dental labs and practices to produce high quality crown and bridge restoration work including inlays and onlays, crowns, bridges and veneers for the fabrication of indirect restorations using a casting or pressing method.

Machine Properties *	Perfactory® Vida 3D Printer
Build Envelope	3.54" x 1.97" x 3.95" (90 x 50 x 100 mm)*
XY Resolution	0.0014" (35 µm)*
Dynamic Z Resolution**	0.001" to 0.006" (25 µm to 150 µm)*
Light Source	Industrial UV LED
Data Handling	STL
Warranty	1 year back to factory including parts and labor

\* Specifications are subject to change without notice. \*\*Material Dependent.

Materials Available	Ideal for
Press-E-Cast M	Fabrication of restorations using pressing or casting methods

## System Properties

- » Compatible with 3Shape, Orchestrate 3D, Dental Wings and Exocad design software.
- » Any STL file of a model designed from an impression or an Intra Oral Scanner can be printed
- » Capable of precise crown and bridge waxups.
- » Changeover between materials is quick and easy with no waste.
- » Plug and play with an easy to use software interface.
- » Very few moving parts guarantees a strong and reliable production system.

Footprint (L x W x H): 15.55" x 13.75" x 31" (39.5 x 35.0 x 78.7 cm)

Weight: 75 lbs (34 kg)

Electrical Requirements: 110 VAC @ 3A

Patents Pending
